## ABOUT COSMOBEAUTÉ INDONESIA

Cosmobeauté Indonesia has been the only platform for the beauty trade professionals within the Southeast Asia region ever since year 2006 where most beauty shows are consumer oriented in this area. Cosmobeauté Indonesia remains committed as the largest beauty industry exhibition in Indonesia and the only exclusive B2B platform focused on aesthetics, beauty, cosmetics, hair, nail, spa & wellness. With a strong emphasis on optimizing networking and business opportunities, Cosmobeauté Indonesia actively facilitates connections between exhibitors, importers, suppliers, and visiting buyers through various strategic initiatives. This commitment ensures that Cosmobeauté Indonesia serves as a multifaceted platform for exhibitors and buyers alike, fostering new connections and creating an immersive and transformative beauty experience for all involved.

## EDITORIAL

**Welcome to Cosmobeauté Indonesia 2023!**

PT Pamerindo Indonesia proudly presents the largest B2B beauty trade exhibition - Cosmobeauté Indonesia 2023, taking place from 12 – 14 October 2023, at Jakarta Convention Center (JCC). On the 16th edition, Cosmobeauté Indonesia elevates its quality as a leading beauty exhibition in Southeast Asia by hosting over 250 exhibitors and showcasing 1000+ brands from 10 regions. These exhibitors will introduce the latest beauty trends, products, technologies, and services that will shape the future of the beauty industry.

The beauty industry in Indonesia is rapidly growing, with a 7% growth rate in 2022. Indonesia holds significant potential for producing high-quality beauty products in line with global trends and market demands. The beauty industry revenue reached US\$7.23 billion in 2022 and is projected to grow annually at a rate of 5.81% (CAGR 2022-2027).

In line with the growing beauty industry in Indonesia, we are committed to creating Cosmobeauté Indonesia an event that has a positive impact on the environment. We aim to play a vital role in assisting the beauty industry to enhance and implement sustainability programs by connecting all beauty industry stakeholders with waste management service providers through Cosmobeauté Indonesia. This year, Cosmobeauté Indonesia has partnered with Ecoloop (PT Alton Waste Management) as the waste management service provider, under the theme “Zero Waste Beauty” with the hope of making a significant impact on the environment.

As part of this year's exhibition, Cosmobeauté Indonesia will also organize several supporting events, a collaboration between Gita Advayatva Choir and the Young Voices Indonesia Wisma Cheshire Foundation during the Opening Ceremony, Indonesia Beauty Icon Awards, Cosmobeauté Barber Battle, The Next Top Makeup Artist Indonesia 2023, World Universal League of Permanent Make Up (WULOP) Cosmobeauté Indonesia PMU Congress & Competition, Seminar & Workshop - Sustainability Through Natural Healing by the Indonesian Spa Therapist Association, Beauté Meeting Program, and Beauté Seminars featuring professional speakers and beauty industry experts.

Find comprehensive information about exhibitors, product highlights, and the schedule of supporting events in this Show Preview. Get ready for an exciting new experience and amazing surprises prepared especially for you at Cosmobeauté Indonesia 2023.

Take advantage of this opportunity to expand your network and discover potential business partners. Mark your calendars and join us from 12 – 14 October 2023, at Jakarta Convention Center (JCC)!

## SUSTAINABILITY AT COSMOBEAUTÉ INDONESIA

SUSTAINABILITY IS US! We are committed to Cosmobeauté Indonesia having a positive impact on people and planet. We want to play a key role in helping beauty industry improve its own sustainability by connecting people with the networks and knowledge they need to help solve the big challenges of the future.

### INSPIRING SUSTAINABILITY

Embed sustainability into our brand by 2025 to inspire our sector to be more sustainable, promoting the achievement of the UN's Sustainable Development Goals:

- Using our content to support the sustainability of the market the event serves
- Inspiring our suppliers, exhibitors and other stakeholders to deliver a sustainable event
- Developing market relevant partnerships

### ENVIRONMENTALLY RESPONSIBLE

Become carbon neutral, halve our waste and save customers more carbon than we emit by 2025 as a stepping stone to being zero waste and net zero carbon by 2030 or earlier by:

- Reducing our event's carbon emissions
- Creating less waste
- Considering sustainability credentials of the items sourced for the event

### SOCIALLY RESPONSIBLE

Contribute value of at least 1% of profit before tax to community groups by 2025, champion diversity and inclusion and create value for our host cities by:

- Doing business safely and ethically
- Considering wellbeing and accessibility
- Creating a positive impact on our host cities
- Measuring our impacts

Amy Packaging seeks to minimize its environmental impact by manufacturing eco-friendly tubes. Protecting our environment is consistent with our general philosophy here as we continue to produce premium, Sustainable Packaging for our eco-friendly consumers. It is our goal to provide sustainable packaging to protect both your products and our environment.

Our Sugar cane PE tubes and PCR tubes are Green Packaging supplies and we hope they are either recycled or re-purposed after their initial use. We consider the environment when we select our raw materials and are proud to stand behind our full line of green packaging products.

PRODUCT 2 : Aluminum Barrier Laminate (ABL) Tubes : This is the packaging most commonly used for toothpaste, cosmetics, pharmaceutical, food industry, household and industrial chemicals. ABL Tubes combines an economic solution with high quality printing options in a proven protective collapsible tube. ABL can be used to make packaging tubes to hold aggressive products including liniment creams, essential oils, antiseptics and adhesives.

Aluminum Barrier Laminate (ABL) tubes have an aluminum foil layer that provides a protective barrier against light, air and moisture penetration, along with reduced flavor absorption. ABL tubes are recommended for pastes, ointments, creams, gels, toothpaste and OTC pharmaceutical products.

**Website : <http://www.nbmonline.com.tw/index.php>**

Since its inception in 1987, the company has been committed to promoting beauty expertise and the latest information on beauty trends. In the beauty industry, continuous updating of knowledge and information is essential to remain competitive and meet consumer demands. Over time, the beauty industry has undergone tremendous changes and innovations and encompasses skin care, makeup, hair, nails, spa treatments, and more.

At the same time, with the rise of social media and the digital age, the company has expanded to online platforms, including websites, social media accounts and mobile applications, to spread beauty knowledge and trend information more widely. Such a digital strategy can create a more direct and interactive connection with readers, while expanding influence and reach.

In addition, the company changed its business model according to the trend and turned to network marketing. Not only provides a platform, but also acts as an agent for overseas beauty exhibitions in the ASEAN region, and assists manufacturers in finding suitable agents and distributors and provides one-stop services. Such service expansion can help customers connect with international markets and promote cooperation and exchanges.

Later on, Professor Lin discovered that most (if not all) "organic" or "natural" products advertised in the market did not live up to their promises or hold responsibility towards consumers. He couldn't morally or spiritually accept this fact, so he created a range of natural product combinations that meet very strict European ECO Organic and Chinese Organic Certification and Natural Standards.

Professor Lin will continue to adhere to his original beliefs and professional ethics, believing that everyone should exercise their right to authentic natural and organic products that are harmless to health. He ensures that all products are safe for consumers and the environment!
